EDUCATION

The University of Texas at Austin	Bachelor of Business Administration, Accounting Minor: Philosophy, Politics, and Economics Overall GPA: 3.93	May 2028
--	--	----------

EXPERIENCE

Partners Commercial Cleaning - <i>AI Automation Intern</i> ; Austin, Texas	August 2025 - Present
- Built TypeScript/Vue real-time operations dashboard for managers tracking cleaners, duties, active sites, & field performance data - Unified client, staff, and inventory data through PostgreSQL workflows, improving reporting accuracy and decision speed by 40% - Cut daily management coordination time 70% by automating reporting & operational data sync with TypeScript and SQL workflows	
SJ Design Studio - <i>Contract Software Engineer</i> ; Plano, Texas	June 2026 - August 2026
- Architected global publishing automation suite with Python, JS, AEM, Jira, Excel, and REST integrations across Samsung operations - Automated ticket routing, publishing, localization, and post-deployment verification across 80+ languages and content workflows - Built Playwright automation, API validation, and error handling, cutting manual processing 70% and saving 100s of hours annually	
HS Ad - <i>AI Automation Consultant Intern</i> ; Englewood Cliffs, New Jersey	June 2025 - August 2025
- Advised cross-functional teams on workflow redesign, identifying and implementing solutions that improved throughput by 35% - Reduced cross-department coordination cost 50% through deployment of AI-enabled project management system across 3 teams - Cut forecasting and reporting turnaround from 3 days to 2 minutes by redesigning and automating recurring analytical workflows	

PROJECTS

SiteGraph - <i>Energy Systems Developer @ DNHacks Hackathon</i>	September 2026
- Built spatial AI field engineer using iPhone LiDAR and vision to assess residential EV charger and DER / VPP installation readiness - Developed deterministic engineering and cost tools to estimate routing, hardware and labor while surfacing electrical constraints - Mapped EV charger project requirements into site-readiness assessments, cost ranges, safety flags and licensed installer handoffs	
KBH Energy Case Competition - <i>Quantitative Analyst, Finalist</i>	November 2025
- Modeled \$2.4B pipeline project for Enterprise Products Partners, forecasting EBITDA by city using throughput, tariff and opex data - Built 10 year DCF model calculating IRR, NPV, payback for each market; identified one city as the optimal expansion with a 34% IRR - Conducted sensitivity, scenario analyses on price spreads and demand fluctuations, quantifying up to a 22% swing in asset returns	

LEADERSHIP EXPERIENCE AND ACTIVITIES

GivePower UT - <i>VP of Finance</i>	April 2026 - Present
- Led financial strategy for \$1M fundraising campaign, overseeing budgeting, forecasting, cash management, and financial reporting - Architected fundraising model across four revenue channels, translating \$1M goal into donors, conversion rates, and benchmarks - Built infrastructure from the ground up, implementing double-entry accounting, financial statements, controls, and reconciliation	
University Finance Association - <i>Consulting Associate, Project Manager</i>	August 2025 - May 2026
- Led 5-man consulting team advising sales-tech startup on go-to-market strategy, customer segmentation, and market positioning - Conducted market sizing and competitive analysis to identify priority customer segments and inform client go-to-market strategy - Developed ideal customer profiles and evaluated target segments across company size, sales structure, and adoption potential	
Undergraduate Korean Association - <i>Junior Officer, Professional Department</i>	August 2025 - May 2026
- Overhauled financial reporting system, introducing balance sheet and income statement, standardizing \$10K+ annual transactions - Managed budgeting and expense tracking of sponsorships, scholarships, dues and events, for accurate allocation of 100% of funds - Coordinated professional department operations including general meetings and events, raising active member participation 25%	

HONORS

• University Honors	Fall 2024 - Spring 2026
---------------------	-------------------------
